

Jamie L. Schmidt, MD

The positive reputation and seamless patient care at Primary Care Associates of Appleton makes it stand apart from other healthcare facilities. I am fortunate to work in such a supportive environment with top-notch colleagues.

Primary care physicians form deep and long-lasting partnerships with patients, many times caring for entire families. Knowing a person's family dynamic really helps treat the whole person. My goal as a doctor is to prevent illness and disease whenever possible, promoting wellness, educating and working with my patients to help them achieve their best health. I am compassionate, resourceful and adaptable. Whether young or old, traditional or progressive, optimist or pessimist - I am excited to meet patients that I will get to know and take care of for many years.

Education

Medical Degree:

Medical College of Wisconsin - Milwaukee, WI

Residency:

La Crosse-Mayo Family Medicine Residency - La Crosse, WI

Board Certification:

American Board of Family Medicine

Professional Interests

Preventive health, women's health, and fertility.

Personal

I enjoy every second of free time with my two daughters and my husband. My hobbies and interests include reading, exercising, traveling, baking, cooking, camping, and spending time with family and friends.
